NOTE: The numbers with ".5" appear for the convenience of departments that offer laboratory courses carrying 1/2 credit for a term's work or one course credit for two terms' work. If a student earned a grade of A or A- in such a laboratory course then they should be given credit for 1/2 of an A grade. Since the figures given are the minimum for eligibility, departments that deal only with full numbers should round out the numbers with ".5" to the next highest number. Thus, for example, "14.5" becomes 15.
